

Defibrillator critical maintenance

Did you know that defibrillators need regular maintenance!!

If you don't perform regular maintenance and inspections on your defibrillator then you run the risk of it not working when you may need it the most. For the price of a cup of coffee per day our 'Concierge' program will help you look after your defibrillator to ensure it's in the best possible condition to save a life when you need it the most. Our AED concierge program takes the hassle out of inspecting and maintaining defibrillators by providing a secure online portal with all the tools needed to help you maintain your AED.

AED AUTHORITY ESSENTIAL CONCIERGE PACKAGE
