

LIFEPAK AED TRAINERS

IMPROVES READINESS

When it comes to Sudden cardiac arrest minutes matter and bystanders play an important role in insuring the survival of someone suffering cardiac arrest (SCA). Although you don't need training to use an AED familiarity with your device is always a bonus, that's where LIFEPAK AED Trainers come in.

Using an AED to deliver a shock within 3-5 minutes of collapse dramatically increases the rate of survival up to 70% When it comes to sudden cardiac arrest, minutes matter.

REALISTIC SIMULATION OF THE LIFEPAK AED RANGE FOR TRAINING PURPOSES

LIFEPAK AED Trainers provide realistic training in the use of the LIFEPAK AED range without any actual charge and discharge of electrical energy.

Designed to simulate the appearance of the LIFEPAK AEDs, the Trainers simulate actual operation using the same simple user interface found on CR2 and 1000 Models. Pre-set demos can be programmed for fully automatic or semi-automatic mode enabling a quick demonstration of the key features, as well as the benefits of cprINSIGHT™ or cprMAX technology.

LIFEPAK CR2 TRAINER ACCESSORIES
